

Get Credentials from Google Drive.

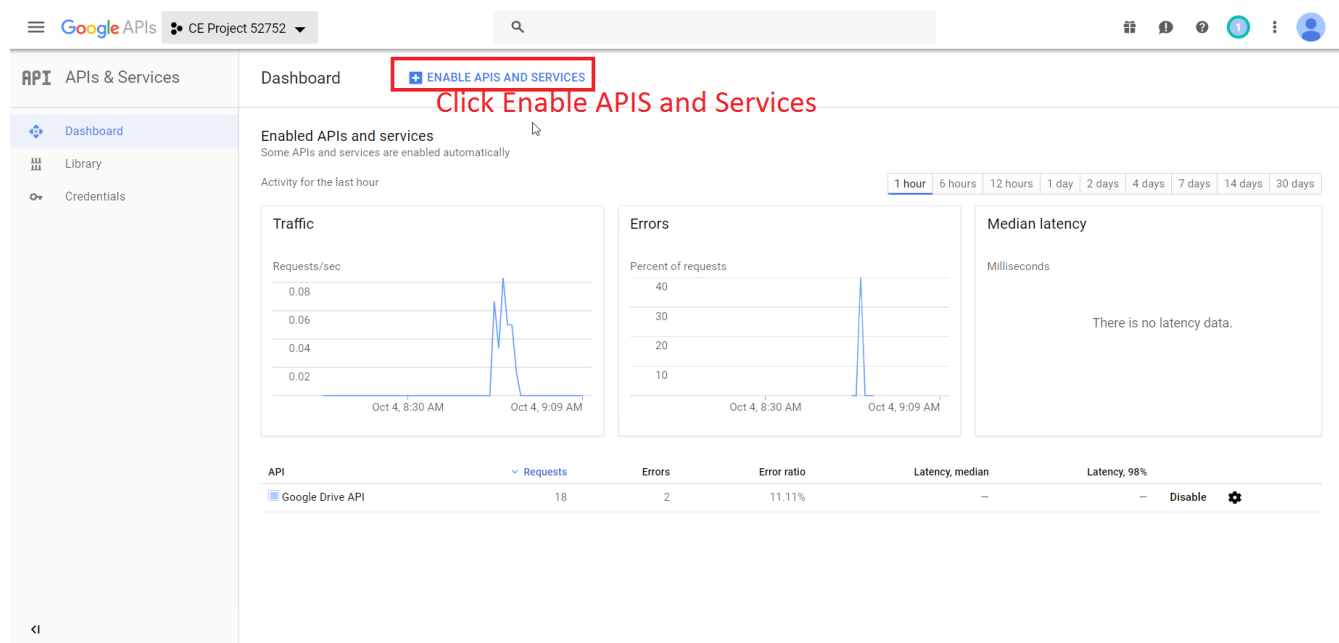

Step 1 : Go to

<https://console.developers.google.com/apis/dashboard>

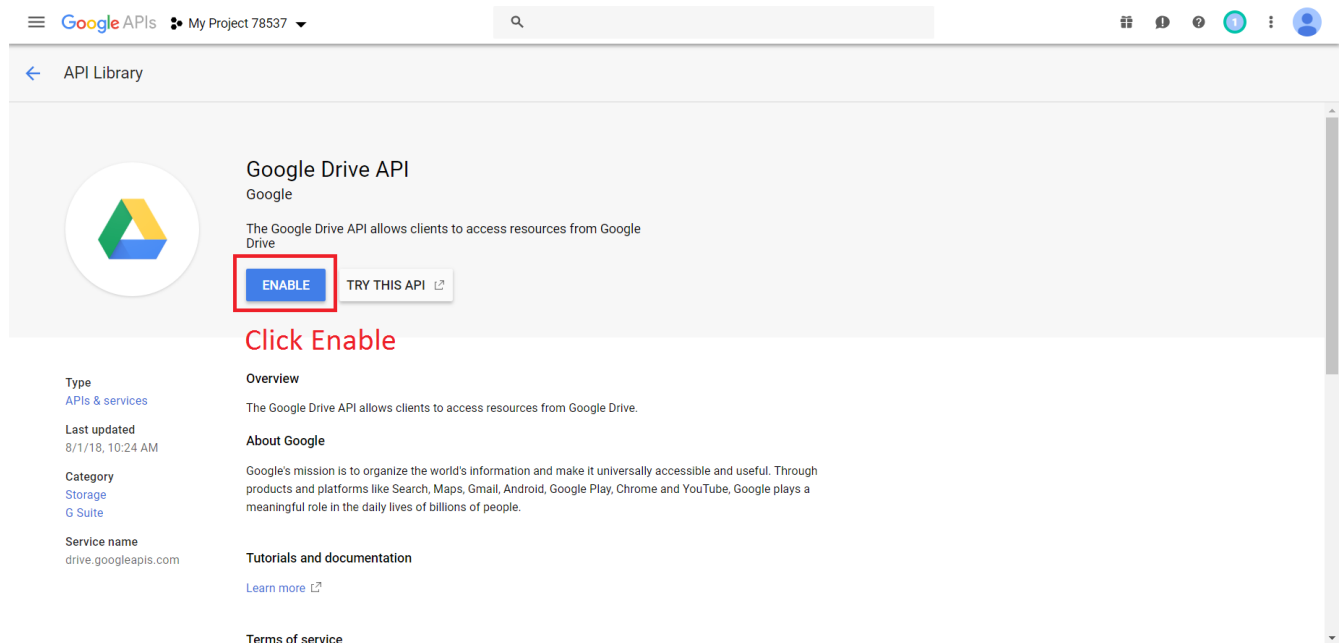

Step 2 : Create new Project

Step 3 : Enable API and Services

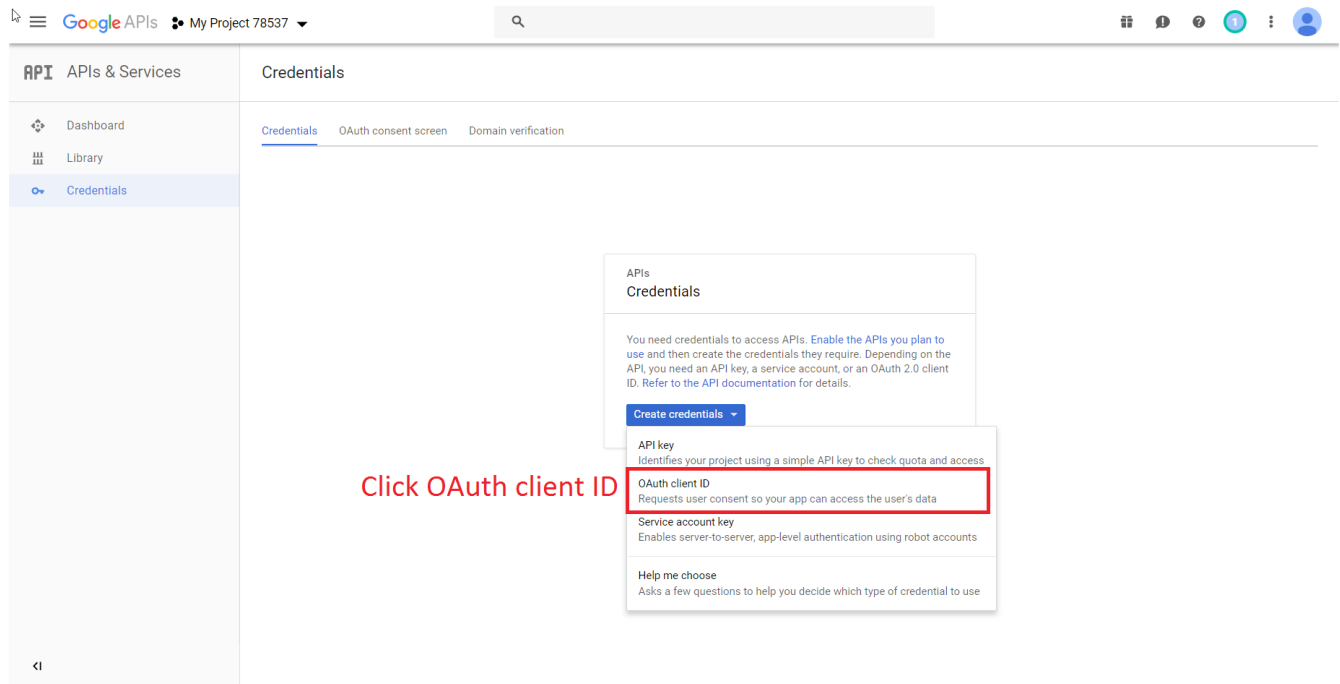

Search for Google Drive API and Enable

The screenshot shows the Google Drive API page in the Google APIs console. The page header includes the Google APIs logo, the project name 'My Project 78537', and a search bar. The main content area features the Google Drive API logo, the name 'Google Drive API', and the provider 'Google'. A description states: 'The Google Drive API allows clients to access resources from Google Drive'. Below this, there are two buttons: 'ENABLE' (highlighted with a red box) and 'TRY THIS API'. To the left of the main content, there is a sidebar with metadata: Type (APIs & services), Last updated (8/1/18, 10:24 AM), Category (Storage, G Suite), and Service name (drive.googleapis.com). Below the main content, there are sections for Overview, About Google, Tutorials and documentation, and Terms of service.

Click Enable

Step 4 : Create Credentials : Click Client OAuth ID and Web Application

The screenshot shows the 'Credentials' page in the Google APIs console. The left sidebar contains the 'APIs & Services' menu with options for Dashboard, Library, and Credentials (selected). The main content area has tabs for 'Credentials', 'OAuth consent screen', and 'Domain verification'. A 'Create credentials' button is visible. Below it, a list of credential types is shown: 'API key', 'OAuth client ID' (highlighted with a red box), and 'Service account key'. Each type has a brief description. At the bottom, there is a 'Help me choose' section with a link to a guide.

Click OAuth client ID
